EDUCATION

Holberton School

Tunisia, Tunis

01/2020 - 09/2021

Courses

- Industry relevant project based curriculum teaching low/high level programming and Dev-Ops with an emphasis on peer-learning and self-direction in a start-up environment.

PERSONAL PROJECTS

Pixelated (10/2021 - Present)

- (React, NodeJS, MongoDB).
- Developed the user interface to make it user friendly and flowed a theme for the project, and kept the interface simple by creating consistency and use of common UI elements .
- Created 80% images and backgrounds and strategically used color and texture to maintain the theme of this project.
- Exploited NodeJS to develop an API to manipulate the authentications for the app.
- Executed 90% of the puzzle games presented in the app.

Mayday (09/2021 - 09/2021)

- (NodeJS, React, MongoDB, HTML, CSS, Bootstrap) ([GitHub](#)).
- Used node js to implement a custom Restful API for database.
- Accomplished the connection between React app and the API.
- Invoked React promises for asynchronous routing and calls to the Restful API.
- Maintained the security for the transition of data between the server sides.
- Facilitated the work flow of the team for a better results.

AirBNB clone (09/2020 - 09/2020)

- (Python, Flask, MySQL, JavaScript, HTML, CSS) ([GitHub](#)).
- Utilized Flask and cmd libraries to write a custom Restful API for database returns and a back-end console for viewing data and creating instances.
- Implemented a Flask Blueprint structures for code re-usability.
- Integrated python unit testing suite to ensure proper behavior of instances and functions, and confirmed there is 0 errors.

Simple Shell (04/2020 - 04/2020)

- (C) ([GitHub](#))
- Built a custom Unix bash shell that can do path handling.
- Accomplished to progress in the project without the need of any of the common libraries.
- Decreased the memory leaks, and make sure there is 0 issues in the app.
